comm: Meaning of community

[cyan]Now I am going to ask you some questions about your community.

First, people often refer to the community in which they live and work. However, the idea of community may mean different things to different people. When you refer to your community, what [yellow]geographic area[cyan] best describes what you mean?

[green] INVR Note: We want to know "geographic" area best describes what they consider their community. If they will not define community in geographic terms, select do not know.

[white]<1> Your local neighborhood
 <2> Your village/town/city
 <3> Your county/borough
 <4> Your region of NYS (Adirondacks, Central NY, Western NY, etc.)
 <5> Some other geographic region (please describe) [specify]
 <6> The idea of "community" has no meaning to me [goto trust]
 [green]<d> Do not know [goto trust]
 <r> Refused [goto trust] @

VALUE	LABEL
1	Your local neighborhood
2	Your village/town/city
3	Your county/borough
4	Your region of NYS (Adirondacks, Central NY, Western NY, etc.)
5	Some other geographic region (please describe)
6	The idea of "community" has no meaning to me

KSQ01: Address insurance costs - Importance

[cyan]

Now I am going to ask you some questions about the health care system and health insurance reform in New York State. Before we proceed, let me give you some background on uninsurance in New York State. As of 2006, there were 2.2 million nonelderly uninsured in the state.

How important will it be for New York's government leaders to work to reduce the cost of health care and health insurance this year? [white]

April 16, 2009

KSQ03: Maximum income level to expand programs

[cyan]

Now I'm going to ask you some questions about different proposals to reduce the number of uninsured.

One option for reducing the number of uninsured would be to provide public coverage from tax revenue. Up to what level of income would you favor expanding New York's programs such as Medicaid (Medicaid is the government program for health insurance for low-income people) or Family/Child Health Plus to make available health coverage under these programs for more people? [white]

- <1> Up to 100% or less of the federal poverty level (for a family of 4, this is about \$20,000)
- <2> Up to 150% of the FPL (for a family of 4, about \$30,000)
- <3> Up to 250% of the federal poverty level (for a family of 4, about \$50,000)
- <4> Up to 400% of the FPL (for a family of 4, about \$80,000)
- <5> For everyone, regardless of income [green]
- <d> Do not know
- <r> Refused

KSQ04: Require larger businesses to offer ins

[cyan]

Another option to reduce the number of uninsured would be for the government to require larger businesses (for example, a firm with over 25 employees) that do not currently provide health insurance to their workers to do so even if it meant that businesses would have to cut some jobs to pay for other workers' health insurance. Would you favor or oppose such a plan for New York? [white]

April 16, 2009

KSQ05: Require health insurance for everyone

[cyan]

Another option to reduce the number of uninsured is to require that everyone have health insurance and the cost would be shared. Employers would be required to provide coverage for their employees. Employees would pay part of the premium. The government would use tax revenue to cover all poor people not covered through employment. Would you favor or oppose such a plan for New York? [green]

Interviewer: Probe to see if they feel strongly or somewhat [white]

<1> Strongly favor
<2> Somewhat favor
<3> Somewhat oppose

April 16, 2009

KSQ06: Provide plans with lower mnthly premiums

[cyan]

Another option to reduce the number of uninsured is to make coverage more affordable through plans that have monthly premiums 25 to 40 percent lower than traditional plans in return for larger out-of-pocket deductibles (\$1,000 for individuals, \$2,000 for families) before insurance coverage begins. If these plans offer 25 to 40 percent in annual premium savings to consumers, would you favor or oppose providing such an option in New York to people who want to purchase them? [white]

KSQ08B2b: Vote B - \$5 more in taxes

[cyan]

Okay, just one more then: suppose the proposed policies that will reduce by one quarter the rate of uninsurance among families earning less than three times the poverty level in your state will instead cause you to have to pay [yellow]\$5[cyan] more in taxes every year. Given your current budget, would you vote for or against the referendum? [white]

JCintrob: Before we proceed with more questions, let me give you some background

[white]Before we proceed with more questions, let me give you some background on youth obesity in New York State. Youth obesity has tripled over the past three decades, and it is now estimated that in New York State in 2005, 11% of youth were obese and an additional 17% were overweight. Youth obesity is associated with chronic disease, such as Type 2 diabetes, as well as low self-esteem and depression. Moreover, obese youths are at increased risk of becoming obese adults, and obesity-related illness in adults costs New York State more than \$6 billion a year.

hhinca: Household income actual
--

[cyan]Lastly, for statistical purposes, last year (that is in 2007)
what was your total household income from all sources, before taxes?

[green]INVWR Note: The the maximum is \$1,000,000. If respondent's HH income
is greater, code as \$1,000,000.

DONT APPEAR HESITANT WHEN ASKING INCOME - THEN RESPONDENT WILL BE HESITANT

If respondent refuses, assure them that all information is completely
confidential and is used purely for statistical analysis to ensure
diversity of respondents.

If respondent still refuses or hesitant, code r and ask income ranges.

[white]
