RBq1_a1: Advise to include order in sales report

[cyan]Imagine you have a friend who earns a bonus based on his sales for the year. Near the end of the year, he realizes he won't get his bonus without selling more. He has a customer who will place a large order next year. Your friend is considering including this order in his sales report for this year so that he can make his bonus, even though the customer hasn't actually placed the order. Your friend will only get his bonus if he includes the order in this year's report. He wants your advice.

Should your friend include the order in his sales report in order to get this year's bonus? Using a scale of 1 to 10, where 1 is very unlikely and 10 is very likely, [yellow]how likely are you to advise your friend [cyan]to include the order in this year's report so he can get the bonus?

[white]

SCq1: Percent fracking jobs to NY residents
--

[cyan] If New York State goes ahead with the new type of shale gas drilling commonly referred to as "fracking", what percent of the drilling site jobs do you think will go to New York residents?

[green] INVW IF NECESSARY

The question pertains to the kind of natural gas extraction that is now going on in Pennsylvania, using horizontal drilling and high volume hydraulic fracturing -- commonly referred to as "fracking".

Drilling site jobs include: supervisors, drilling engineers, drilling crew workers, construction workers, truckers.

We're asking what portion (%) of those jobs will go to New York residents, as distinct from people coming into the state to do those jobs and then leaving. [white]

<1> Zero. No drilling site jobs will go to New York residents
 <2> Less than 20% of drilling site jobs will go to New York residents
 <3> 20-40%
 <4> 40-60%
 <5> 60-80%
 <6> Over 80% (but not all)of drilling site jobs will go to NYS residents
 <7> 100% all drilling site jobs will got to NYS residents [green]
 <8> Do not know anything about this topic to be able answer
 <d> Do not know
