Questionnaire Key:

- **Orange** programming notes indicate routing, experimental manipulation, or back-end processes.
- **Green** notes display in the survey instrument but are not read aloud during interviews.
- **Purple** translations are used in the Spanish version of the questionnaire. Variant language question names have “.2” appended for reference.

**Topic**: Core ESP questions

Hello, I'm (Programming note: Display interviewer name [fill INVN]) calling from Cornell University.

Cornell is conducting a study with people in New York to get their input on some important issues. This is a great opportunity to share your views and help shape future policies.

If you have a few minutes to help out, I would really appreciate it!

*Programming note: Only display text for landline sample. [if LLorCell = <LL>, then display birthday selection method text]*

In order to randomly select participants, I would like to speak with the adult, age 18 or older, who is home now and who had the most recent birthday. Would that be you or someone else?

>askname<
May I please have your first name -- just in case we get disconnected?
*Interviewer note: This isn't required.*

>nysres<
You are currently living in New York State, correct?

  <0> No (ineligible)
  <1> Yes (proceed to interview) [go to confr]

>otherres<
*Programming note: Only ask if not living in NYS [if nysres = <1>, then go to confr]*

If no New York State resident in household, household is ineligible and the survey ends. If there is a New York State resident in household, go back to the identification screen. [if otherres = <0>, then end survey] [if otherres = <1>, then go back to identify]

Is there anyone else we could reach at this number who lives in New York State?

  <0> No (ineligible) [ineligible: end survey and code case as “NotNYS”]
  <1> Yes [go to identify]
Great, thanks. You're eligible for the study, so let's get started.

Interviewer note: You must read this statement before proceeding.

Before we begin, there are a few points I need to cover:
I want to assure you that all the information you give will be kept completely confidential and that none of it will be released in any way that would permit your identification.

Your participation in this study is, of course, voluntary. If there is any question you would prefer not to answer, just tell me and we will go on to the next question.

To make sure we're getting a mix of opinions from around the state, would you please tell me which New York State county you currently live in?

NYC boroughs are:
Brooklyn = Kings County
Manhattan = New York County
Staten Island = Richmond County
Bronx/Queens (county name is same as borough name)

<1> Albany  <33> Franklin  <65> Oneida  <97> Schuyler
<3> Alleghany  <35> Fulton  <67> Onondaga  <99> Seneca
<5> Bronx  <37> Genesee  <69> Ontario  <101> Steuben
<7> Broome  <39> Greene  <71> Orange  <103> Suffolk
<9> Cattaraugus  <41> Hamilton  <73> Orleans  <105> Sullivan
<11> Cayuga  <43> Herkimer  <75> Oswego  <107> Tioga
<13> Chautauqua  <45> Jefferson  <77> Otsego  <109> Tompkins
<15> Chemung  <47> Kings  <79> Putnam  <111> Ulster
<17> Chenango  <49> Lewis  <81> Queens  <113> Warren
<19> Clinton  <51> Livingston  <83> Rensselaer  <115> Washington
<21> Columbia  <53> Madison  <85> Richmond  <117> Wayne
<23> Cortland  <55> Monroe  <87> Rockland  <119> Westchester
<25> Delaware  <57> Montgomery  <89> St Lawrence  <121> Wyoming
<27> Dutchess  <59> Nassau  <91> Saratoga  <123> Yates
It's very important that we make sure we're covering all regions of New York State. So would you please at least confirm whether you live downstate (that includes Brooklyn, Manhattan, Staten Island, Bronx, and Queens as well as Long Island and Rockland and Westchester counties) or upstate (all other regions).

<1> Downstate (Brooklyn, Manhattan, Staten Island, Bronx, Queens, Long Island. Also Rockland and Westchester Counties)
<2> Upstate (All other regions of NYS)
<r> Refused

In your opinion, what do you think is the **single** most important issue facing **New York State** as a whole?

Interviewer note: Do not read list! Instead, select option below that best represents the R's answer. If R provides more than one answer, have them choose the single most important problem. Only if the R's answer does not fit any of the categories below, select "Other" and specify.

<1> Crime
<2> Economic growth (economy)
<3> Education
<4> Employment
<5> Environment
<6> Health care

>hhinc<
For statistical purposes, last year, in (Programming note: Display last year [fill lastyear]), what was your total household income from all sources, before taxes?
    <5000-999999> Dollars [go to hhinc]
    <1000000> Dollars or more [go to hhinc]
    <d> Do not know [go to hhinc50k]
    <r> Refused [go to hhinc50k]

>hhinc50k<
Programming note: Only ask if “do not know” or “refused” exact annual income. [if hhinc = <d> or <r>, then go to hhinc50k]

Instead of a specific number, please tell me if your total household income in 2019 was under or over $50,000.
    <5> Under $50,000 [goto hhinc]
    <6> $50,000 or over [goto hhinco]
    <d> Do not know [goto survlang]
    <r> Refused [goto survlang]

>hhincu<
Programming note: Only ask if income is under $50,000 based on estimated income response. [if hhinc50k = <1>, then go to hhincu]

Instead of a specific number, please tell me if your total household income In (Programming note: Display last year [fill lastyear]) was under or over $50,000.

And was it:
    <1> Less than $10,000 [goto hhinc]
    <2> 10 to under $20,000 [goto hhinc]
    <3> 20 to under $30,000 [goto hhinc]
    <4> 30 to under $40,000 [goto hhinc]
    <5> 40 to under $50,000 [goto hhinc]
    <d> Do not know [goto hhinc]
    <r> Refused [goto hhinc]
Programming note: Only ask if income is $50,000 or over based on estimated income response. [if hhinc50k = <2>, then go to hhinco]

Instead of a specific number, please tell me if your total household income in (Programming note: Display last year [fill lastyear]) was under or over $50,000.

And was it:

<6> 50 to under $75,000
<7> 75 to under $100,000
<8> 100 to under $150,000
<9> $150,000 or more
<d> Do not know
<r> Refused

Programming note: Calculate for all valid income responses. The coded value for household income is a single scale with the best response obtained from all of the household income items (hhince, hhinc50k, hhincu, hhinco). If the respondent did not give a valid response for any income questions, no value is recorded.

If available, the exact household income (from hhince) is coded according to the scale below.

Otherwise, if an income range is available (from hhincu or hhinco), it is copied to this variable.

Otherwise, if only a response to hhinc50k is available, incomes of "Under $50,000" are coded as 5 ($40,000 to under $50,000) and incomes of "$50,000 or over" are coded as 6 ($50,000 to under $75,000).

<1> Less than $10,000
<2> 10,000 to under $20,000
<3> 20,000 to under $30,000
<4> 30,000 to under $40,000
<5> 40,000 to under $50,000
<6> 50,000 to under $75,000
<7> 75,000 to under $100,000
<8> 100,000 to under $150,000
<9> More than $150,000

Programming note: Record for everyone

Interviewer note: In which language was this survey conducted?

<1> English
<8> Spanish
